## Benchrest at Silverdale

The SSAA Sydney Committee is committed to working together with the Benchrest group to address any issues or concerns that the group may have. It is important that we continue to move forward and build upon our earlier initiative of ensuring that there is open dialogue and communication between the Benchrest group and the SSAA Sydney Committee.

We are positive that a unified approach between the Benchrest group and SSAA Sydney Committee and SSAA Sydney Staff can help to reinvigorate the discipline at Silverdale.

We are determined to ensure that shooting at Silverdale Range continues to be an enjoyable experience and that it remains the premier Benchrest range in NSW.
